

# Child's Voice in Computing

## Nursery:

*"I got a whiteboard in my class. We play games on it. We play anything we want. I like the pink guys! They make a silly noise."*

## Reception:

*I like playing with Beebots. You can draw with them. You just press buttons... there is a mini hole for the pen.. Then you press the button and the Beebot draws on the paper!*

## Year 1:

*'I like to do algorithms and I like going on purple mash to make my avatar. I like going on the computer because it feels like I'm at my house.'*

## Year 2:

*'I like editing my work and typing my name, I can make it different sizes. I liked it when we looked at a website called Dog Island and we had to work out if it was false or true.'*

**Be Kind, Grow Together, Learn Forever**
