

Dear Parents/Carers,

The children have had a fabulous week and have been super busy vets! We've had poorly teddies, flamingos with broken legs, elephants whose trunks have needed to be bandaged and many dogs who have received care for their poorly paws! Lots of fun. During Maths, we have been focusing on number 4, singing songs and playing games.

Next week our focus will be doctors and nurses and how they care for others, we will be thinking about the medical apparatus that they use (stethoscope etc) and of course, I am sure there will be lots of bandaging of arms and legs! In Maths, we will be continuing to think about number 4, but will be focusing on the composition of 4. We will be singing the song '4 little teddy bears'. I have attached this for you. In Phonics next week, our phoneme will be the phoneme 't'.

Reminders and Requests

- We'd love some bandages and plasters for our doctor's role play area! Thank you 😊
- If anyone who works in the medical profession would like to come into nursery and speak to the children, tell them what they do and show them some real medical apparatus, we'd love to have you! Please speak to either Jaia or Kat to arrange a suitable time/date. Thank you again.

Future Dates

- Tuesday 3rd February - NSPCC Number Day - children to come dressed up as or with numbers. You can be as imaginative as you like!
- Friday 6th February - Special Books to be sent home and returned on Monday 9th February.

Many thanks for your continued support and have a great weekend
The Nursery Team 😊

4 Little Teddy Bears

4 little teddy bears sitting on a chair,
Washing their face and fluffing up their hair,
They looked out the window and saw a sunny day
So one teddy bear went out to play!

3 little teddy bears sitting on a chair,
Washing their face and fluffing up their hair,
They looked out the window and saw a sunny day
So another teddy bear went out to play!

(Continue until all the teddies are outside playing.)
